

Internal Policy Guidelines 2025

Futures First Entertainment · Internal Use Only · Confidential

Data Access and Privacy Policy

All viewer data collected by the studio analytics platform is subject to GDPR, CCPA, and applicable regional data protection regulations. Viewer-level data is classified as personal data and must be handled accordingly.

Access to viewer-level data is restricted to approved analytics roles. Aggregate and anonymised data may be shared with marketing and finance teams subject to standard data sharing agreements.

Marketing Spend Approval Process

All campaign spend above \$5M per title requires CFO sign-off a minimum of 45 days before campaign launch. Influencer partnerships above \$500K per individual require legal review and a signed brand safety agreement.

All campaign performance data is to be reported monthly to the CMO using the standard template maintained by the analytics team.

Analytics Tool Usage Policy

The internal AI analytics assistant is approved for use by analytics, strategy, and senior leadership roles. It is not approved for use in client-facing contexts or for generating legally binding documents.

All AI-generated insights must be validated against primary data sources before being cited in board presentations or external communications.
